

Casa Maria de Amor – HealingCircle of life

***Vision of the community project “Casa Maria de Amor”
HealingCircle of life – for human, animals, plants and spiritual beings***

www.casamariadeamor.com

The aims of the Casa Maria de Amor:

“This is place, there all beings can heal, grow, connect and remember her one potential”:

- 1 child protection (place for street children, and reintegration in the family if possible)**
- 2 poverty fights by education / wisdom school (education school, permaculture, social competence and wisdom of the natives)**
- 3 communities (young and old people and all nations)**
- 4 permaculture (in the harmony with nature and developing competence for community)**
- 5 wisdom school - integrations of the knowledge of the natives / teachers from all direction and tradition –**
- 6 spiritual seminar and healing place for all cultures / tradition**
- 7 a green school – school public for normal kids and the community in harmonie with mother earth**
- 8 support of the millennium targets**

I´m dreaming a lot about the project "Casa Maria de Amor" and the entities teaching me a lot:

- create a place where humans can grow with love and create a place where love is the main medicin – all people can growth into her potential
- create a community of people - every one is welcome - so we have to create a community, which is holding the project (maybe 50 to 100 or more people)
- this community is holding the energy for:
 - ***the community is creating a healthy place where homeless kids can grow at this place, with the wisdom of the medicin wheel***
 - ***we will teach the kids to become protector of mother earth, they will grow with love, wisdom and a new knowledge of community growing***

Casa Maria de Amor – HealingCircle of life

- they will carry is old knowledge of the medicin way to Brasil – all people can become wisdom keepers, healer´s and medium´s

- the community is creating a place of healing (teaching and offering healings), a place of wisdom (a place there carry old healing knowledge of shamans and other schools) and protection of mother earth
- a place where handicapped and old people are very welcome to life together
- the only structure that this community is using, as a stucture, is the medicin wheel or council (it´s wisdom and love)
- the whole land is owned by a foundation – every one in the project can not own land or shares!
- it´s a place of love, healing, happiness and teaching - we will create a healing and spiritual seminare center, hopefully a holistic school (school of wisdom, look at <http://www.greenschool.org/>)
- create a knowledge center how communities can live in peace and love together
- I see allways that we will plant herbs
- create a center for knowledge for homeless kids, that can be used as a model world wide
- Project will start at 1.2.2012, south of Brasilia, where we get the land...
- This could be a role model for 4 other project in Brasil(Bahia, Sao Paulo, Recife, and Rio)
